

## Secure Control Room Operations with VuWall and Parker Group

COMPREHENSIVE VIDEO WALL SOLUTIONS  
FOR MISSION-CRITICAL ENVIRONMENTS

Control what you see.

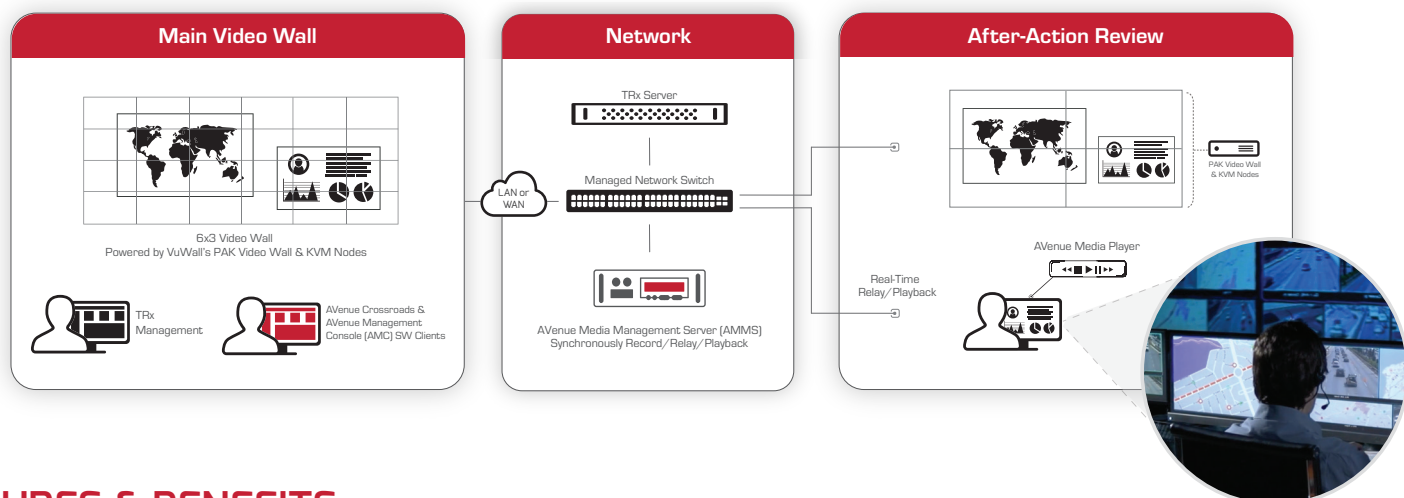

# VuWall & Parker Group

## VIDEO WALL MANAGEMENT, KVM CONTROL, RECORDING, PLAYBACK & REVIEW

VuWall and Parker Group optimize control room operations with innovative and integrated video wall technology. VuWall's TRx leading video wall management platform, combined with AVenue, Parker Group's recording solution, enhance decision-making and situational awareness in mission-critical and simulation environments.

### MISSION-CRITICAL ENVIRONMENTS

- ✓ Government and Defense
- ✓ Control Rooms
- ✓ Training and Simulation
- ✓ Public Sector
- ✓ Healthcare

## FEATURES & BENEFITS

### Visualization

Cutting-edge video wall management solution seamlessly integrates with AVenue's AV-over-IP capabilities, offering a unified visualization experience for control room operators.

### User-Friendly Interface

AVenue ensures a user-friendly experience with real-time DVR controls. Operators can seamlessly play, pause, skip back, fast forward, catch up to live, and bookmark content, enhancing operational efficiency.

### Modular & Scalable IP Video Walls

Build video walls of any size with PAK video wall processing and KVM nodes – a uniquely scalable, secure, and reliable video wall solution that simplifies video wall deployments and provides control room operators unparalleled flexibility.

### Secure

Built on DevSecOps principles, AVenue prioritizes security. TAA-compliant hardware and software fortify the system, establishing a resilient security posture and ensuring compliance with industry standards.

### Synchronized

Synchronously record and play back high-resolution audio and video in real-time, allowing for collaborative and precise decision-making.
