

HELPING CONSULTANTS

Efficiently Designing Video Wall
Projects for Professional Applications

A Modular Approach to Video Wall Management and AV Distribution

Discover VuWall's many free services offered to AV, IT and security consultants.

We're committed to helping consultants succeed. Our dedicated team of experts provides the tools and information you need to select the right technology and ensure that every project is specified properly the first time.

HELPING CONSULTANTS

Efficiently Design Video Wall Projects for Professional Applications

VuWall provides a complete ecosystem of interoperable products built on the unique hybrid technology, VuTrex™. VuTrex bridges AV, IT and IP systems for the most effective distribution of visual information, from any source to any display or video wall, throughout organizations.

INTEROPERABLE

Seamless integration to reduce deployment time and risk.

HYBRID

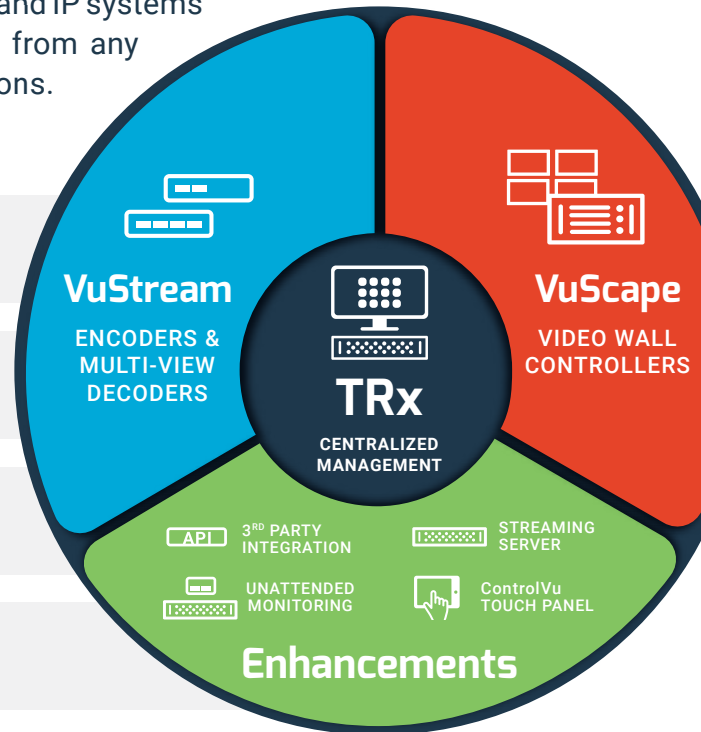

Handle a variety of source types and display formats.

SCALABLE

Modular architecture to future-proof your deployment.

NO PROGRAMMING

Configuration and operation with easy drag and drop.

SOLVING INDUSTRY CHALLENGES

Challenges

A WIDE VARIETY OF TECHNOLOGY

Handle different types of video formats, display technology, and software tools to fulfill the different visualization needs throughout an organization.

CUSTOM PROGRAMMING

Controlling different components often requires custom programming and relying on stable and well-documented API's from each vendor. This is very costly and time-consuming.

CHANGE OF SCOPE

Between the start and end of a project, requirements can change. Change orders and redesigns may demand complex adjustments.

EVOLVING TECHNOLOGY

Designing a project with the confidence that in years from now it will be possible to integrate new technology with the existing infrastructure.

Solutions

A single management platform that bridges AV, IP and IT systems, able to handle a variety of source formats (HDMI, H.264, SDVoE, Web, RSS) and a variety of display formats (LCD, LED, single monitors, video walls, architectural displays, projectors).

A single management platform with easy drag and drop operations and a built-in control panel designer.

A scalable solution built on a modular architecture with a drag and drop interface that facilitates the redesign of preset configurations that include new devices.

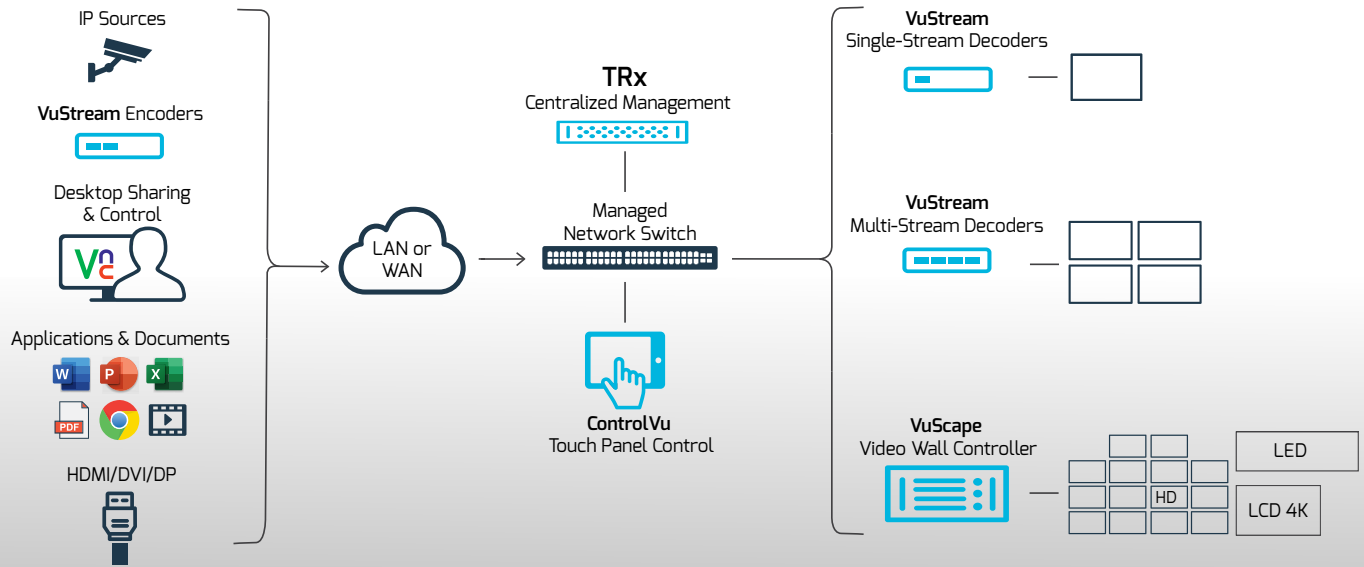

A standards-based, interoperable solution that is built on an open architecture and easily integrates with third-party components with an extensive and fully-documented API.

Need help with your AV distribution or video wall project?

VUWALL ECOSYSTEM WORKFLOW

For the most effective distribution from any source to any display surface throughout organizations

CHALLENGES

- Various Formats
- Custom Programming
- Agility
- Technology Evolution

SOLUTIONS

- Hybrid Technology
- Central Management
- Drag and Drop
- Scalability
- Interoperability
- Complete Ecosystem

VALUE

- Increase ROI
- Reduce Design Time
- Reduce Project Risk
- Flexible Design
- End User Autonomy
