VuWall

IHSE KVM & VuWall Video Wall Management

UNIFIED CONTROL WITH SEAMLESS INTEGRATION
FOR CONTROL ROOM OPERATIONS

Control what you see.

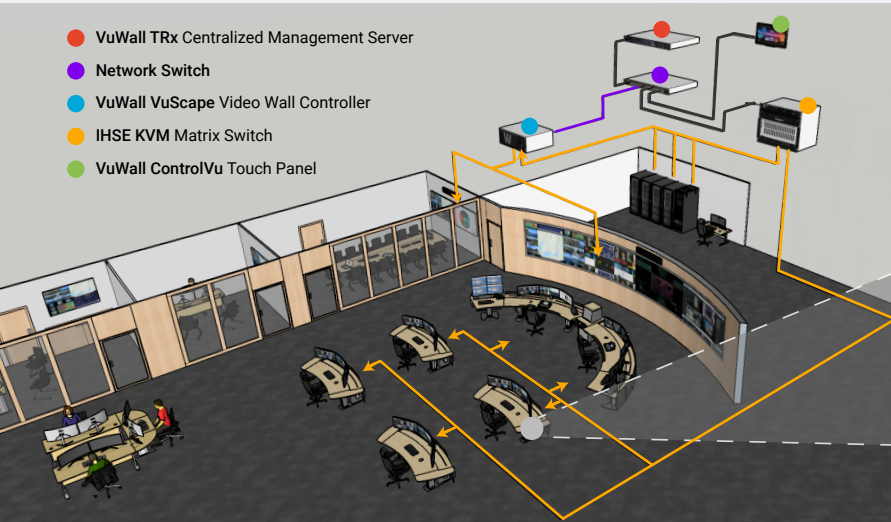

IHSE & VuWall

TRx – ONE PLATFORM FOR KVM SWITCHING & VIDEO WALL MANAGEMENT

IHSE and VuWall are improving control room operations with an integrated solution that empowers operators with complete video wall control at their fingertips. Thanks to VuWall's TRx software, operators can manage and share critical information on the video wall and control all sources from the matrix with TRx's easy-to-use interface.

MISSION-CRITICAL APPLICATIONS

- Government & Defense
- Public Safety & Cybersecurity
- Traffic Management
- Security & Emergency Operation Centers

FEATURES & BENEFITS

Visualization

Control & visualize any source on any operator desktop or video wall.

Unified Platform

Quickly & easily manage & share all critical information from a single user interface.

Interoperable

Manage multiple source formats: web pages, KVM stations, IP cameras, RSS feeds, TV tuners, emergency messaging, etc.

User-Friendly

Configure all visual layouts with easy drag-and-drop operations

Touch Panel Control

Create custom control panels without any programming.

A SINGLE PLATFORM

TO MANAGE KVM SWITCHING AND ROUTING
BETWEEN KVM STATIONS AND VIDEO WALLS
