Video Wall Management & AV Distribution Made Simple

## ANY SOURCE. ANY DISPLAY.

Control what you see.

VuWall

The VuWall Ecosystem
For Hybrid and Interoperable Unified Visualization

VuWall provides a complete ecosystem of interoperable products built on a unique standards-based architecture that provides the most effective distribution of visual information, from any source to any display or video wall, throughout organizations.

At the center of the ecosystem is the TRx Centralized Management Platform. It bridges AV, IT and IP systems ensuring interoperability and ease of use, simplifying AV-over-IP deployments, thus reducing deployment time and integration risk.

ENHANCEMENTS

Capture
Grab content in any format, decode any stream, and aggregate with local apps.

Distribute
Deliver content from any source to any video wall with simple drag-and-drop.

Visualize
Efficiently aggregate content on single displays or multi-surface configurations.

Manage
Create custom control panels to operate your visualization system from anywhere.

VuWall

Increasing Productivity and Enhancing Visualization Experiences
in Professional and Mission-Critical Applications

VuWall simplifies workflows and increases operator efficiency with interoperability and ease of use by facilitating the distribution of visual information from any source to any single display, multi-display, video wall, or KVM operator desktop — all through easy drag-and-drop operations or customizable control panels.
