VuWAll is committed to helping our partners deliver the best solutions to their customers and growing business, together.

We want you to succeed and our dedicated team of experts are here to provide you with the tools and information you need to select the right technology and ensure that every project is specified properly the first time.
VuWall develops solutions to easily manage visual information on video walls and displays throughout facilities. We are dedicated to bringing innovative technology to help your customers increase productivity and enhance their visualization experiences by simplifying workflows in professional and mission-critical environments. Our Global Partner Program provides everything you need to grow your business and ensure your customer’s success.

Our complete ecosystem of interoperable products is built on a unique standards-based architecture that provides the most effective distribution of visual information, from any source to any display or video wall, throughout organizations. At the center of our ecosystem is the TRx Centralized Management Platform. TRx bridges AV, IT and IP systems ensuring interoperability and ease of use, simplifying AV-over-IP deployments, thus reducing deployment time and integration risk.

SERVICES TO PARTNERS

Whether you are a systems integrator or a value-added distributor, we are committed to helping you deliver the best solutions.

# Industry Challenges

## A Wide Variety of Technology
Handle different types of video formats, display technology, and software tools to fulfill the different visualization needs throughout an organization.

## Custom Programming
Controlling different components often requires custom programming and relying on stable and well-documented API's from each vendor. This is very costly and time-consuming.

## Change of Scope
Between the start and end of a project, requirements can change. Change orders and redesigns may demand complex adjustments.

## Evolving Technology
Designing a project with the confidence that in years from now it will be possible to integrate new technology with the existing infrastructure.

# Solutions

## A Single Management Platform
A single management platform that bridges AV, IP and IT systems, able to handle a variety of source formats (HDMI, H.264, SDVoE, NDI, Web, RSS) and a variety of display formats (LCD, LED, single monitors, video walls, architectural displays, projectors).

## Custom Programming
A single management platform with easy drag-and-drop operations and a built-in control panel designer.

## Change of Scope
A scalable solution built on a modular architecture with a drag-and-drop interface that facilitates the redesign of preset configurations that include new devices.

## Evolving Technology
A standards-based, interoperable solution that is built on an open architecture and easily integrates with third-party components with an extensive and fully-documented API.
VUWALL ECOSYSTEM WORKFLOW

For the most effective distribution from any source to any display throughout organizations

Sources
- HDMI/DVI/DP
- IP Sources
- VuStream Encoders
- Desktop Sharing & Control
- Application Server
- KVM CPUs & Matrix Switch

TRx Centralized Management
- TRx Server
- Managed Network Switch
- LAN or WAN
- TRx Software
- ControlVu Touch Panel

Destinations
- PAK Video Wall Nodes
- VuStream Decoders
- VuScape Video Wall Controller
- LED, LCD
- KVM Operator
