

## Powerful Centralized Multi-Video Wall Management Platform

TRx is a unique software that combines AV-over-IP distribution, advanced multi-video wall and KVM management. Designed to manage video walls in professional and mission-critical environments, TRx is deployed in control rooms, security operation centers, and corporate workspaces worldwide.

TRx is used to configure, manage, and distribute virtually any source type to any display with easy drag and drop and without any programming, simplifying the deployment of complex AV-over-IP projects and reducing risk and on-site deployment time. TRx is easy to install and makes it simple to route and service hundreds of sources and displays throughout entire facilities. Thanks to its open architecture, it is scalable, interoperable, and future-proof — by design.

#### Interoperable

Compatible with 3<sup>rd</sup> party brands. Supports H.264, H.265, SDVoE, NDI, SRT, and more.

#### **Centralized Management**

Configure and control all video walls and displays from a single platform.

#### Secure & Reliable

Encrypted and secure streams for 24/7 mission-critical environments.

#### Flexible & Scalable

Unlimited number of sources & destinations. Modular design that adapts to your growing needs.

#### Ease of Use

Easy drag-and-drop interface for configuration and operation.

#### Access from Anywhere

Web-based management.

No software installation required.

#### Reduce Risk

Reducing configuration & deployment time in the field.

#### Redunancy & Availability

Full availability & control of your visualization infrastructure

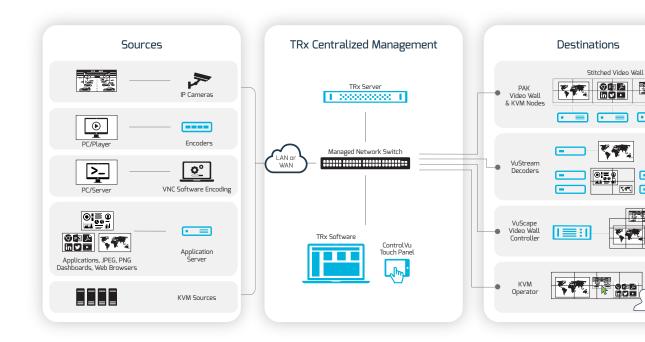

# TRx Workflow

# **TRx Applications**

Control Rooms

Corporate Workspaces

**Experience Centers** 

Crisis Rooms

Lobby Signage

Classrooms & Auditoriums

## TRx Centralized Management Software Platform

## **Features**

### **Centralized Web-Based Management**

Manage and control the system with any standard browser from anywhere on the network. No software to install.

## Multi-Floor, Multi-Site Management

Define zones and floors for easy control of multiple rooms and sites. Each operator can manage local and remote content easily from a single intuitive user interface and bring any content to any destination with a single drag-and-drop operation.

## **User Rights Management**

Administrators can fine-tune permissions to individual users or groups with or without Active Directory. Access restrictions can be set on floors, zones, sources and displays. Permissions can be set to perform joins on video, audio, keyboard/mouse, and USB. Users can also be granted access to create/save/edit/delete presets, control panels, scripts, and more.

#### **Easy Drag-and-Drop Operations**

Manage all AV experience through easy drag-and-drop, from source configuration and routing to advanced video wall management.

### **Advanced Video Wall Management**

Control and manipulate content on multiple video wall: move, resize, crop or zoom. Send layouts created on one wall to any other wall. Manage all encoders and decoders via TRx, making it a full AV over IP solution.

#### **Source Management**

Manage all sources in the system quickly and efficiently with TRx's intuitive UI. Features include sorting and filtering, active preview mode and individual thumbnail upload. TRx supports a wide range of IP streams, HDMI, DP, and SDI sources, applications, screen captures, pictures, videos, websites, and documents.

#### **KVM Control**

KVM devices can be fully integrated, controlled and used in TRx. Enhanced features include private mode and USB device switching. The VuStream 350 and the TRx Capture Server allows operators to convert any PC on the network into a KVM source for KVM control including audio.

## VMS Plugin for Genetec<sup>™</sup> and Milestone

Control room operators can manage video wall controllers and other AV-over-IP devices directly from the already-familiar Genetec<sup>TM</sup> Security Center or Milestone XProtect<sup>®</sup> interfaces without switching applications.

## TRx Centralized Management Software Features

## **Carousel / Source Touring**

Ideal for security monitoring, the Carousel feature provides a designated window to show one source at a time for a specified amount of time before displaying the next source in the carousel list.

### **Audio Management**

Manage audio controls for all encoders, decoders and video wall controllers and nodes, including physical inputs and browsers.

### **Powerful Scripting and Macro Tools**

Built-in tool to easily create custom macro-commands and automate series of tasks in a TRx deployment. Tasks include commands such as manipulating layouts and triggers, controlling external devices such as switching displays on/off and controlling audio settings. All commands can conveniently be assigned to control buttons on the ControlVu touch panels.

## **Supported Devices**

TRx supports multiple platforms including:

- ✓ VuWall's PAK & VuScape video wall processors
- ✓ VuWall's VuStream series of encoders/decoders
- VuWall's Application Server
- ✓ Adder ipeps+ KVM
- ✓ IHSE KVM switches
- ✓ IP sources including cameras and VNC
- ▼ Third-party encoders/decoders: H.264, SDVoE, SRT, and NDI

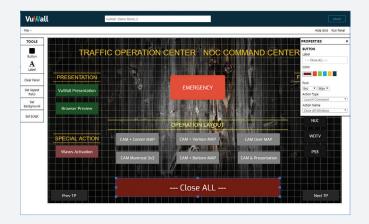

#### **REST API**

Extensive REST API with sample code and interactive documentation of every function for third-party integrations. Use easily with various manufacturers like AMX, Crestron, Extron, and Utelogy.

## Control Panel Designer

Create a fully customized touch panel with the integrated Control Panel Designer without any programming! Each button can launch layouts, scripts or even control external devices. Multiple panels can be created from the same interface, allowing a single administrator to design a custom panel for every operator station. Users can upload logos, images, backgrounds, and create custom buttons with a variety of shapes and colors. The possibilities are endless.

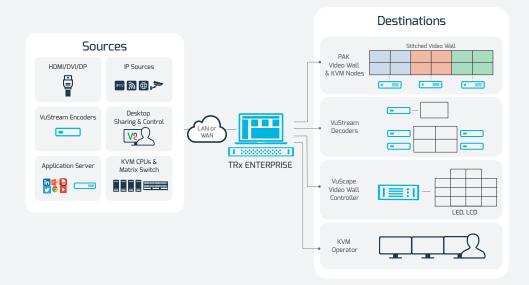

## **Software Options**

# TRx ENTERPRISE

- Projects with AV distribution and one or multiple video walls
- Supports unlimited sources and destinations
- Support for KVM operations
- ✓ Support for SDVoE Multiview Mode, Video Wall Mode & USB routing
- Supports entire VuWall ecosystem of products

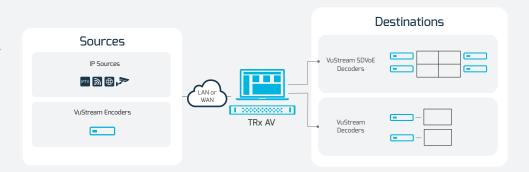

# TRx ONE

- Projects with single PAK 40 or single VuScape video wall controller
- Runs directly on VuScape (separate server not required). If used with PAK, server is required
- Does not support external decoders

# TRx AV

- For projects with AV distribution only
- Manage VuStream or 3<sup>rd</sup> party encoders and decoders
- Support for SDVoE Video Wall Mode and USB routing (No support for SDVoE Multiview Mode)
- Does not support PAK and VuScape video wall processors

Scripting & API Features  REST API for 3 <sup>rd</sup> party devices (Crestron, AMX, etc.)  Control of 3 <sup>rd</sup> party devices (displays, matrix switches, etc.) with powerful scripting languages  Alarm management (scripting) and support for I/O devices  Redundancy module for fault-tolerant systems with dual video wall controllers  Control and manage KVM devices and use them as a source  Private Mode preventing other users to access or view specified sources	Customizable Carousel through different sources within a single window		0	0
Scripting & API Features  REST API for 3 <sup>rd</sup> party devices (Crestron, AMX, etc.)  Control of 3 <sup>rd</sup> party devices (displays, matrix switches, etc.) with powerful scripting languages  Alarm management (scripting) and support for I/O devices  Redundancy module for fault-tolerant systems with dual video wall controllers  Control and manage KVM devices and use them as a source  Private Mode preventing other users to access or view specified sources			0	0
REST API for 3 <sup>rd</sup> party devices (Crestron, AMX, etc.)  Control of 3 <sup>rd</sup> party devices (displays, matrix switches, etc.) with powerful scripting languages  Alarm management (scripting) and support for I/O devices  Redundancy module for fault-tolerant systems with dual video wall controllers  Control and manage KVM devices and use them as a source  Private Mode preventing other users to access or view specified sources	Plugin to Genetec <sup>™</sup> Security Center or Milestone XProtect® (sold seperately)		0	0
Control of 3 <sup>rd</sup> party devices (displays, matrix switches, etc.) with powerful scripting languages  Alarm management (scripting) and support for I/O devices  Redundancy module for fault-tolerant systems with dual video wall controllers  Control and manage KVM devices and use them as a source  O Private Mode preventing other users to access or view specified sources	Scripting & API Features			
Alarm management (scripting) and support for I/O devices  Redundancy module for fault-tolerant systems with dual video wall controllers  Control and manage KVM devices and use them as a source  O Private Mode preventing other users to access or view specified sources	REST API for 3 <sup>rd</sup> party devices (Crestron, AMX, etc.)	0	0	0
Redundancy module for fault-tolerant systems with dual video wall controllers  Control and manage KVM devices and use them as a source  O Private Mode preventing other users to access or view specified sources	Control of 3 <sup>rd</sup> party devices (displays, matrix switches, etc.) with powerful scripting languages	0	0	0
KVM Features  Control and manage KVM devices and use them as a source  Private Mode preventing other users to access or view specified sources	Alarm management (scripting) and support for I/O devices	0	0	0
Control and manage KVM devices and use them as a source  Private Mode preventing other users to access or view specified sources	Redundancy module for fault-tolerant systems with dual video wall controllers		0	0
Private Mode preventing other users to access or view specified sources	KVM Features			
	Control and manage KVM devices and use them as a source	0		0
Support for PAK KVM feature	Private Mode preventing other users to access or view specified sources			0
··	Support for PAK KVM feature			0

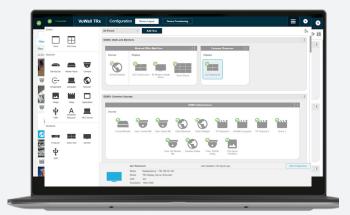

## TRx User Interface

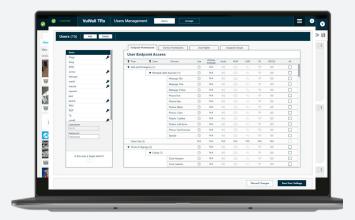

TRx features an intuitive easy-to-use drag-and-drop interface with advanced scripting tools, a control panel designer and device provisioning, all without the need for any programming.

**DEVICE PROVISIONING** 

CONFIGURATION

**USER MANAGEMENT** 

**OPERATION** 

## **Centralized Management Server Options**

VuWall servers power TRx AV and TRx ENTERPRISE software options (not required for TRx ONE) and are available in two sizes: the Mini and the 1U rack mountable servers.

## Server Mini

A compact form-factor server to easily and effectively manage small-scale projects. Ideal for areas with limited space for hardware.

VuWall

VuWall

## Server Mini Cluster

- High redundancy
- High availability (HA) with automatic failover
- Easy back-up and restore
- Includes two servers

## Server Redundant

- Redundant Power Supply
- Two SSD drives in redundant configuration
- Hot-swappable SSD drives

The 1U rack mountable server, powered by a redundant power supply and two Solid State Drives in redundant configuration ensures optimal performance. Two LAN ports allow the server to be connected to more than one corporate network enabling redundancy of the AV infrastructure and offering network flexibility and additional control.

## Server Cluster

- Fully redundant
- High Availability (HA) with automatic failover
- Easy back-up and restore
- Includes two servers

Offering full redundancy of the entire AV infrastructure with two hot-swappable servers, delivering the highest availability with automatic redundancy. Servers are connected over a network, allowing them to be located across multiple sites, while the TRx software suite runs on a virtual machine on the Server Cluster.

# **Technical Specifications**

Product Name	Server Mini	Server Mini Cluster*	Server Redundant	Server Cluster**	
Part Number	VW-Server-MP-4	VW-Server-MP-Cluster-4	VW-Server-1U-R-4	VW-Server-2U-Cluster-4	
SSD	Single SSD	Single SSD	Two Hot-Swappable SSD drives in redundant configuration	Dual SSD	
Weight	1.3kg / 2.9lbs	1.3kg / 2.9lbs	14kg / 31lbs	14kg / 31lbs	
Dimensions	165 x 190 x 43mm (WxDxH) 6.5 x 7.5 x 1.7" (WxDxH)	165 x 190 x 43mm (WxDxH) 6.5 x 7.5 x 1.7" (WxDxH)	437 x 503 x 43mm (WxDxH) 17.2 x 19.85 x 1.7" (WxDxH)	437 x 503 x 43mm (WxDxH) 17.2 x 19.85 x 1.7" (WxDxH)	
Power	External power supply with 100-240VAC	External power supply with 100-240VAC	2x 100-240VAC	2x 100-240VAC	
Power Consumption	120W	120W	400W	400W	
Power Supply	Single	Single	Redundant	Redundant	
Operating Conditions	0-40°C / 32-104°F Humidity 10-90%		5-35°C / 41-95°F Humidity: 10-90%		
Noise Level	Max. 36dB (depends on system config and room temperature)  Max. 61dB (depends on system config and room temperature)		config and room temperature)		
Warranty	3 years				
Mounting Hardware					
Rackmount	N/A	N/A	19" 1RU	19" 1RU	
Network Interface					
Connectors & Standard***	2x RJ45, 1x at 1GbE and 1x at 2.5GbE	2x RJ45, 1x at 1GbE and 1x at 2.5GbE	2x RJ45, 10GbE (each)	3x RJ45, 2x 10GbE (each) and 1x 1GbE	
IP Version	IPv4/IPv6				
IP Addressing		Static IP and DHCP			

<sup>\*</sup>The Server Mini Cluster includes 2x VW-Server-MP-4. Tech specs are specified for each of those servers.

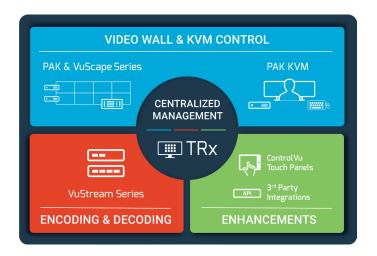

<sup>\*\*</sup>The Server Cluster includes 2x 1RU servers. Tech specs are specified for each of those servers.

<sup>\*\*\*</sup>Consult QuickStart Guides for connection details.

# The VuWall Ecosystem Unified Visualization & Video Wall Control

The VuWall ecosystem of interoperable products is built on a unique standards-based architecture that provides the most effective distribution of visual information, from any source to any display or video wall throughout organizations.

At the center of the ecosystem is the TRx Centralized Management Platform. TRx bridges AV, IT and IP systems ensuring interoperability and ease of use, simplifying AV-over-IP deployments, thus reducing deployment time and integration risk.

# Video Wall Management & AV Distribution Made Simple From Any Source to Any Display
